

Construction and Demolition Recycling

Waste Management provides La Verne several types of recycling containers that can assist you in your recycling efforts and ensure that you can easily comply with the city's C&D policy and California's Green Building Code to recycle your job's debris. Whether your job is small or large, Waste Management has a bin that will fit your job's needs. For any questions, or to set-up service, please call Waste Management Customer Service at 800-266-7551.

Low Boy 12-yard

Container can be used for: concrete, asphalt, dirt, and mixed concrete and asphalt. Price includes up to 5 tons disposal.

Price: \$547.99 (\$53.31 per ton after 5 tons)

25, 30 & 40 yard

Waste Management offers larger containers for mixed C&D material. These containers are more commonly used for large-scale construction sites. Price includes up to 5 tons of disposal.

Price: 25, 30 & 40 Yard: \$547.99 (\$53.31 per ton after 5 tons)

Bagster: Dumpster in a Bag

Perfect for small remodel jobs. Purchase a bag online at Home Depot, Amazon or thebagster.com. Holds 3 cubic yards of debris weighing 3,300 pounds.

Price: \$295 first pick up/\$210 for additional pick ups.

Please note: C&D bins are not to be used for trash. If you have bulky items or trash to be disposed of, schedule a bulky item pick up or schedule a large temporary bin for trash only.

Prices effective until June 30, 2017
